Please keep Uber in service. I love them and they are safe and affordable for me as a student and young professional.

Subject: Uber

To whom it may concern,

I began using uber in September of 2014 when I took a trip to Colorado with my friends. We travel all the time and uber is the easiest, safest, most convenient, and all around enjoyable car service that I have ever experienced. Every driver has been charming, and willing to go out of their way for their customers. I have never once felt threatened or uncomfortable with an uber driver, and I cannot say the same for riding in strange cabs and taxis. The prices are fair for customers and for the drivers. We need uber, it is an amazing service that saves so much hassle for drivers and riders. Please do not let one bad apple ruin the bunch.

Thank you,

Allison Josey

As a lifelong South Carolina resident I fully support Uber's right to do business in this state. We have a strong history of government deregulation and no public good is served by denying people a legal way to make money.

Thank you for your continued service to our state.

Uber is much better than taking a cab because it is so much safer not to mention easier. I won't let my girlfriend take a cab by herself cause a lot of cab drivers are guys and sketchy as hell, however I completely trust all uber drivers. They are just much more professional.
